Album Description

Inspired by a summer trip to Falun in Dalecarlia, a province in central Sweden, the songs of this album reflect my memories of deep forests, blue lakes and deep mines. The lovely side of the town is a place well suited for contemplation and dreaming.

Biography

I always had a fascination with devices with lots of keys and buttons to press. So when I could begin taking classes at the public music school at age 10, the piano was the obvious choice for me. Back then we did not have an instrument at home, so I was allowed to practice in the music room of my elementary school. And the practice paid off! For Christmas that year, my parents gave me a Casio keyboard, so I could practice at home. Beside practicing the piano lesson homework every week, I would also create my own little songs.

In my early 20's I lived in Hamburg, Germany, for a few years, and had my first full-time job as a web developer. I rented an apartment in the district of Wandsbek, and one of the first items that

moved in was a Yamaha digital piano, that I had bought from my first salary. That instrument has been a loyal and valued companion since then.

My debut album "Blissful in December", a collection of original music with a Christmas theme, was published at CD Baby in October, 2017.
